Contents of Volume 4

ARTICLES, ABSTRACTS, COMMENTS, REPLYS

PERCEPTION AND PERFORMANCE

Role of adaptation level in stimulus intensity dynamism by H. Murray and D. Kohfeld, (Vol. 3), 439
Comment by R. Adamson, 228
Vestibular sway: Parameters of the eliciting stimulus by C. D. Fernald and J. W. Moore, 55

PSYCHOPHYSICS

The sequential judgment of proportion by G. F. Pitz, 397
A comparison of the English and metric system in a length estimation task by H. R. Schiffman, 399
The effect of signal intensity on comparative judgments of auditory durations by T. A. Tanner, Jr., R. M. Patton and R. C. Atkinson, 353

VISION (GENERAL)

Age differences in lightness perception by J. Beck, 201
After-image fusion by T. Behrendt, M.D. and R. Raymond, 299
Adaptation of humans to colored split-field glasses by T. L. Harrington, (Vol. 3), 71
Comment by J. C. Hay and H. L. Pick, Jr., 78
A note on the relation between the optic disc and the blind spot by R. J. Stanek, 347
The apparent size of entoptic after-images by G. Stanley, 289

FORM PERCEPTION

Separation thresholds for colored bars with and without luminance contrast by H. P. Bishop, 223
Adaptation to prismatic displacement as a function of the amount of available information by S. Coren, 407
Visual figural after-effects and field dependence by L. Immergluck, 219
Perceptual behavior of 8- to 10-week-old human infants by A. Lang, 203
Distortion of parallel lines in geometrical fields as a function of size of the display by A. J. Marshall and V. Di Lollo, 405
The influence of eye movements on a new type of apparent visual movement by J. H. McFarland, 51
Effect of figure-ground contrast and contour orientation on the temporal range of apparent movement by R. H. Pollack, 401
Visual acuity of *"Saimiri sciureus"* by L. S. Woodbourne, (Vol. 3), 307
Erratum, 42
Effects of choice-figure rotation on the visual perception of form by Ann V. Woodring and E. A. Alluisi, 403

SPACE PERCEPTION

Inferences about visual mechanisms from monocular depth effects by F. Attneave and R. K. Olson, 133
Perceived slant as a function of direction of regard by B. E. Dunn, 297
The effect of asymmetric stimulation on the apparent median plane by J. B. Reid, 141

SKIN SENSES

Vibrotactile sensitivity and the frequency response of the Pacinian corpuscle by R. T. Verrillo, 135
Taction thresholds for short pulses by R. T. Verrillo, 409

TASTE

Gustatory cross adaptation between salts by D. H. McBurney and J. A. Lucas, 301

PREFERENCE

Visual preference in the four-month old infant by W. C. Spears, 237

REACTION TIME

The effect of the orienting reaction on disjunctive reaction time by R. Blackman, 411
Reaction time to electrocutaneous onset and offset stimulation by T. G. Sticht and E. Foulke, 213

ATTENTION

Duration of looking and number of brief looks as dependent variables by D. Premack and G. Collier, 81
Evoked cortical response during vigilance by R. T. Wilkinson, H. C. Morlock and H. L. Williams, 221

HUMAN LEARNING AND THINKING

The prediction of perceptual-motor learning from independent verbal and motor measures by D. L. Kohfeld, 413

CONDITIONING

GSR conditioning at a long CS-US interval mediated by S's counting behavior by H. W. Coppock, 155
Erratum, 206
Human eyelid conditioning at detection threshold by H. D. Fishbein and S. Engel, 291
Some indices of GSR activity in a long-delay conditioning paradigm by R. D. Hare, T. D. Creighton and Lynn Hunt, 207
GSR and polarization capacity of skin by D. T. Lykken, R. D. Miller and R. F. Strahan, 355
Verbal conditioning with "positive" and "positive and negative" reinforcement by M. E. Meyer and D. M. Crum, 59
Effect of intrastimulus agreement and conflict upon conditioned discrimination and reversal of the eyelid response (Abstract) by C. M. Levy, 60

DISCRIMINATION LEARNING

Process of component and pattern learning by A. Binder, 415

Performance of preschool children on three discrimination shifts by D. J. Dickerson, 417

The effect of light on sound intensity generalization after two-stimulus discrimination training by D. D. Dorfman and R. Miller, 337

Discrimination learning by retardates as a function of number of implicit response trials by H. J. Fletcher, 159

The effects of alcohol on semantic and phonetographic generalization by C. M. Levy and P. H. Murphy, III, 205

Human successive discrimination reversal: Effects of overtraining and reinforcement by T. E. Sitterley and J. E. Capehart, 293

SERIAL LEARNING

Prediction of complex verbal learning by E. O. Eimer and R. J. Senter, 339

Serial CVC learning with varied m' but equal a values by C. E. Noble, Florence A. Showell and Helen R. Jones, 217

PAIRED-ASSOCIATE LEARNING

A shift from "negative" to "positive" transfer under the A-C paradigm with increased number of C-D control pairs in a mixed list by W. F. Battig, 421

Stimulus-response durations in paired-associates learning by A. A. Baumeister and W. F. Hawkins, 167

Incidental learning with "omitted" context cues by Isabel M. Birnbaum, 49

The effect of familiarization instructions on associative latency and learning by W. B. Gillooly, 303
Erratum, 400

Paired-associate learning: Similarity among stimulus terms by F. L. Girardeau, 423

Associative symmetry with two conditions of perceptual organization by D. L. Hoats and Irma R. Gerjuoy, 341

Transfer in repaired S_1-R_2 and S_2-R_1 paradigms by J. P. Houston and Louise D. Morony, 83

R-S learning in brain damaged and control subjects by C. V. Lair, D. H. Kausler and C. W. Harpenau, 345

Verbal paired-associate transfer as a function of practice and paradigm shift by R. B. Martin, Seymore Simon and R. Ditrichs, 419

Transfer of interitem associations from serial to paired-associate learning by W. L. Martin and W. A. Greene, 295

The effects of "instructions to mediate" upon paired-associate learning by J. A. McNulty, 61

Similarity among the implicit stimuli and responses in mediated paired-associate learning by R. F. Stanners, 343

REINFORCEMENT

Probability learning of response patterns by G. H. Bower, 215

Some cross-cultural data on probability learning by M. Cole, L. Keller and Nina N. Korzh, 211

Intermittent punishment of responding maintained by variable ratio reinforcement by A. Kaufman, 307

Conjugate reinforcement of operant responding in infants by L. P. Lipsitt, Linda Johnson Pederson and C. A. Delucia, 67

Frustration effects rather than Sr effects in children by L. E. Longstreth, 425

Stimulus duration effects on secondary reinforcement by Mona Morningstar, Nancy A. Myers and J. L. Myers, 357

Children's probability learning as a function of the cross-sex effect by R. D. Odom, 305

Response alternation in children under different schedules of reinforcement by M. Rieber, 149
Erratum, 350

The effects of performance feedback, social and monetary incentive upon human lever pressing rate by P. G. Swingle, H. Coady and D. Moors, 209

MEMORY

Effect of contextual meaningfulness on the rated meaningfulness and recall of words by Harriett Amster, 151

Short-term recall of paired-associates as a function of the number of interpolated pairs by J. W. Brelsford, Jr., L. Keller, R. M. Shiffrin and R. C. Atkinson, 73

Short-term memory in children as a function of display size by R. C. Calfee, E. Mavis Hetherington and Phyllis Waltzer, 153

Retrieval of long-term memory: "Tip-of-the-tongue" phenomenon by J. L. Freedman and T. K. Landauer, 309

Consolidation of word sequences as a function of rehearsal time and contextual constraint by M. J. A. Howe, 363

A technique for the study of steady-state short term memory by L. Katz, 361

Affect and short-term retention by Phyllis Kernoff, B. Weiner and Myrna Morrison, 75

Free recall of intralist items as a function of serial position, association value and conceptualization by F. J. King, I. Reid and D. M. Roberts, 311

Recognition and recall of high frequency words following serial learning by R. Lachman, K. R. Laughery and W. H. Field, 225

The measurement of "adopted chunks" in free recall learning by J. A. McNulty, 71

Practice and compatability in 2-channel short-term memory by N. Moray and Ann Jordan, 427

Associative factors in the recall of connected discourse by S. Rosenberg, 53

R-S recall and recognition as functions of stimulus and response meaningfulness by J. Sedivy and D. H. Kausler, 229

MEDIATION

An experimental evaluation of the pseudomediation hypothesis by L. R. Goulet and L. Postman, 163

Reported mediation as a function of degree of learning by S. J. Dean and R. B. Martin, 231

VERBAL PROCESSES

The reliability of free association responses by J. F. Hall, 79
The influence of frequency of exposure on the learning of a phrase structural grammar by E. M. Segal and Terry G. Halwes, 157
Word association norms: Stability of response and chains of association by Sydelle Stone Shapiro, 233
Sex, stimulus, association strength, duration and rate of repetition in semantic satiation by F. Shima, 429
Free word associations of children and adults by Joan Wertheim and P. J. Geiwitz, 57

PROBLEM SOLVING AND DECISION MAKING

Test of a theory of predictive behavior in young children by R. S. Bogartz, 433
The perception of experimentally induced failure by C. H. Castore and S. Streufert, 137
Problem solving within a verbal response hierarchy by C. P. Duncan, 147
Differential payoff-loss in probability-learning and decision-making by J. R. Gentile and L. M. Schipper, 65
Anagram solution as a function of pronounceability and difficulty by J. A. Hebert and C. A. Rogers, Jr., 359
The effects of overtraining on a reversal and nonreversal shift by S. H. Hochman, 235
Effects of procedural variables upon reversal and interdimensional shift performance: I by P. J. Johnson, Anne Fishkin and L. E. Bourne, Jr., 63
Effects of procedural variables upon reversal and interdimensional shift performance: II by P. J. Johnson, Anne Fishkin and L. E. Bourne, Jr., 69
The effect of overlearning on relearning following a confusion phase by H. W. Ludvigson, 161
A supplementary study of response uncertainty and relative expected value in multiple-choice decision behavior by D. M. Messick and A. Rapoport, 143
Spontaneous alternation of high and low reactively curious children by R. D. Peters and R. K. Penney, 139
Concept identification of auditory dimensions as a function of age and sex by V. Pishkin and E. S. Rosenbluh, 165
Cost and accessibility of offers as determinants of optional stopping by A. Rapoport and A. Tversky, 145
Einstellung during simple discrimination learning by F. C. Ress and M. Levine, 77
Double alternation in children's binary choice responses by D. Rosenhan, 431
Information search as a function of conceptual and environmental complexity by P. Suedfeld and S. Streufert, 351

SOCIAL PROCESSES

The effect of a pratfall on increasing interpersonal attractiveness by E. Aronson, B. Willerman and Joanne Floyd, 227
Predicting interpersonal attraction toward strangers presented in three different stimulus modes by D. Byrne and G. L. Clore, Jr., 239
Conditioning effects on two apparatuses by Beverly I. Fagot, 349
The effect of experimental manipulation on cooperative behavior in a chicken game by V. Sermat and R. P. Gregovich, 435

PHYSIOLOGICAL PSYCHOLOGY

Effects of the pitch and duration of tones on EEG desynchronization by D. E. Berlyne and R. M. Nicki, 101
Stereotactic implantation for small animals: A "wire-bridge" technique by W. P. Radloff, 47
Cortical control of specific and nonspecific sensory projections to the cerebral cortex by R. F. Thompson, D. Denney and H. E. Smith, 93
Erratum, 242
Temperature gradients in the rabbit eye by A. R. Yeslin and P. S. Shurrager, 39

MOTIVATION AND EMOTION

The effect of extensive mesencephalic central gray lesions on responses to reinforcing brain stimulation by V. C. Cox and E. S. Valenstein, 1
Gastric ulceration as a function of food deprivation in isolated and aggregated mice by W. B. Essman, 251
Effects of hippocampal lesions on food and water consumption in rats by D. P. Kimble and G. D. Coover, 91
Decreased tolerance of hypothalamic hyperphagics to quinine in drinking water by F. B. Krasne, 313
Electrodermal responses in the sociopath by W. W. Lippert, Jr., and R. J. Senter, 25
Appetitive thresholds of the hypothalamic "feeding area" self-determined in the rat by B. P. H. Poschel, 381
Motivation and learning in mice after goldthioglucose-induced hypothalamic lesions by J. A. Sechzer, S. G. Turner and R. A. Liebelt, 259

DISCRIMINATION

An EEG correlate of autonomic discrimination by J. Baron, 255
Acquisition, discrimination, and extinction with intracranial stimulation by G. Deatherage, 253
Simultaneous double discrimination response following brain bisection by M. S. Gazzaniga and R. W. Sperry, 261
Visual cliff preferences following lesions of the visual neocortex in cats and rats by Patricia M. Meyer, R. A. Anderson and Mary Goolsby Braun, 269
Deafferentation in monkeys: Extinction of avoidance responses, discrimination and discrimination reversal by E. Taub, D. Teodoru, S. J. Ellman, R. F. Bloom and A. J. Berman, 323

AVOIDANCE

Retroactive facilitative effects of ECS on learning an avoidance response in a two-choice situation by J. H. Casseday, 19

Effect of amygdaloid lesions on avoidance learning in the rat by L. V. Dicara, 279

Role of freezing and fear in avoidance decrements following mammillothalamic tractotomy in cat: I. Two-way avoidance behavior by E. E. Krieckhaus and C. C. Chi, 263

Role of freezing and fear in avoidance decrements following mammillothalamic tractotomy in cat: II. Appetitively motivated behavior by E. E. Krieckhaus, 265

MEMORY

Memory consolidation: Probit analysis of retrograde-amnesia data by A. Cherkin, 169

Effect of electroconvulsive shock on inhibition of an active avoidance response by D. J. Delprato, 15

Amnesic effects of ether and electroconvulsive shock in mice by M. J. Herz, H. V. S. Peeke and E. J. Wyers, 375

Dissociation of conditioned emotional and avoidance responses due to ECS: A cautionary note by B. A. Maher and D. J. Lewis, 171

Reply by L. K. Gerbrandt, 172

Chronic electroshock: Effects on brain weight, brain chemistry, and behavior by G. T. Pryor, L. S. Otis and E. Uyeno, 85

DRUG AND CHEMICAL EFFECTS

The effect of cutaneous vibration on weight loss by D. M. J. P. Atrens, 281

Dissociation of movement initiation without dissociation of response choice by D. Bindra and H. Reichert, 95

Lack of facilitation of learning by strychnine sulphate by Kristin Carlson, 173

Spontaneous alternation and scopolamine by R. J. Douglas and R. L. Isaacson, 283

Similarities in effects of barbiturates and mild tranquilizers on activity in mice by L. S. Harris, J. Pearl and M. D. Aceto, 267

Maze preferences in naive rats produced by injection of ribonucleic acid from trained rats by A. L. Jacobson, F. R. Babich, Suzanne Bubash and Carolyn Goren, 3

Comment by D. J. Barker, 314

Reply by A. L. Jacobson, 334

Recovery from prolonged barbiturate sleep in the rat by R. A. Levitt, 393

Effects of satiation on performance as a function of stimulant and depressant drugs by Sandra Pyke, N. McK. Agnew and P. A. Adams, 103

Yeast ribonucleic acid: Effects on learned behavior in the rat by A. R. Wagner, J. B. Carder and W. W. Beatty, 33

Effects of prenatal hypoxia upon activity and emotionality of the rat by C. J. Vierck, Jr., F. A. King and V. H. Ferm, 87

ANIMAL BEHAVIOR

ACTIVITY

Startle decrement and secondary reinforcement stimulation by H. L. Armus and Donna Sniadowski-Dolinsky, 175

Developmental effects of the A^y substitution on mouse activity level by J. D. Hawkins, 105

EMOTION

Food deprivation and reactivity to shock by R. J. Blanchard and D. Carolyn Blanchard, 317

Stimulus control of the prey attack response in naive garter snakes by G. M. Burghardt, 37

Higher-order conditioning of fear (CER) by J. W. Davenport, 27

The hawk-goose phenomenon: A replication and an extension by Marsha Green, R. Green and W. J. Carr, 185

Effect of presence of an imprinted object on response of ducklings in an open field and when exposed to a fear stimulus by L. J. Stettner and B. N. Tilds, 107

Fighting in pigeons relative to available space by F. N. Willis, Jr., 315

MOTIVATION

Waning of aggressive motivation in *Betta splendens* by R. Baenninger, 241

The rat's adjustment to the 23-hour water-deprivation schedule under two conditions of food availability by R. H. Dufort, Anne J. Funderburk and H. A. Rollins, 365

Perceptual factor: Quantity of food available and consummatory behavior in chickens by J. H. Grosslight, M. W. Schein, S. Ross and S. B. Lyerly, 97

Collateral water drinking in rats maintained on FR food reinforcement schedules by R. W. Schaeffer and Judith C. Diehl, 257

PREFERENCE

Color preference in squirrel monkeys (*Saimiri sciureus*) by K. F. Green, J. W. Moore and T. D. Sargent, 367

Conditional-outcome choice behavior in squirrel monkeys by K. F. Green and J. W. Moore, 369

VISION

Visual cliff behavior of mice as a function of genetic differences in eye characteristics by R. Frank and J. Kenyon, 35

Erratum, 242

Differences in the effectiveness of optic uncrossed fiber systems in albino and hooded rats by C. L. Sheridan and L. L. Shrout, 177

CONDITIONING

Rat vocalization to shock with and without a CS by P. Badia, S. Suter and P. Lewis, 117

Distribution of practice in the classical conditioning of planarians by F. T. Crawford, Patsy A. Livingston and F. J. King, 29

Classical conditioning of reflexive fighting by T. L. Creer, E. W. Hitzing and R. W. Schaeffer, 89

Fear conditioning as a function of CS duration during acquisition and suppression tests by J. A. Dyal and E. D. Goodman, 249

Classical conditioning and extinction of the licking response in rats by R. L. Patten and E. B. Deaux, 21

Classical appetitive conditioning in the pigeon: Partial reinforcement by R. M. Slivka and M. E. Bitterman, 181

DISCRIMINATION LEARNING

The response shift phenomenon in discrimination learning set by R. E. Bowman and Ken-Ichi Takemura, 31

Influence of overlearning on single habit reversal in naive rhesus monkeys by H. A. Cross and W. N. Boyer, 245

Spontaneous alternation and middle ear disease by R. J. Douglas, 243

Conditional discrimination learning in rats by P. D. Eimas and Helen Doan, 109

Generalization gradients from "reaction time" or latencies of the white rat to visual brightness by J. Farmer, W. N. Schoenfeld and A. H. Harris, 23

Discrimination of area differences by the harbor seal by S. H. Feinstein and C. E. Rice, 379

Prompted vs. trial-and-error 3-trial object discrimination learning by monkeys by H. J. Fletcher, 111

Transitory effects of experiential deprivation upon reversal learning in dogs by J. L. Fuller, 273

Backward association in pigeons by L. Gray, 333

Simple and complex learning in rats reared socially or in isolation by J. C. Hitt and Helene D. Gerall, 179

Operant discrimination as a function of rate of stimulus alternation by A. C. Kamil and J. W. Davenport, 325

The learning of patterned strings problems by rock squirrels by J. E. King and E. D. Witt, 319

Visual discrimination in deermice by J. A. King and R. G. Weisman, 43

Discrimination-reversal skills of primates: The reversal/acquisition ratio as a function of phyletic standing by D. M. Rumbaugh and Mary Belle Pournelle, 45

Some effects of light flicker rate on the pigeon by H. N. Sloane, Jr., 119

Irrelevant stimuli present all or half of the time as subsequent discriminanda by Sally E. Sperling, 195

Habit reversal in the crow, *Corvus Americanus* by L. J. Stettner, K. Matyniak and J. M. Brandt, 331

The interaction between sensory and tonic factors in the perception of the vertical in pigeons: II. A replication via an alternative procedure by D. R. Thomas, J. Lyons and F. Freeman, 395

Reversal of an operant discrimination by noncontingent discrimination reversal training by M. A. Trapold, 247

Strategies and cross-modal transfer in monkeys by Martha Wilson, 321

AVOIDANCE AND PUNISHMENT

Passive avoidance response learning as a function of prior tumbling-trauma by D. C. Anderson and P. Paden, 129

Acquisition of a passive avoidance response as determined by variations in prior aversive stimulation by D. C. Anderson, H. W. Tyson and F. Williams, 131

TCAP: Negative results in avoidance and water maze learning and retention by F. R. Brush, J. W. Davenport and V. J. Polidora, 183

Escape conditioning in snakes employing vibratory stimulation by F. T. Crawford and C. E. Holmes, 125

Affect conditioning associated with the onset and termination of electric shock by B. Forrin, 191

Effects of shock schedules on the acquisition and extinction of escape behavior by J. J. Franchina, 277

Relation of cue to consequence in avoidance learning by J. Garcia and R. A. Koelling, 123

Effect of continuous vs. discontinuous shock on shuttle box avoidance in the rat by K. E. Moyer and J. A. Chapman, 197

Effect of UCS intensity on the acquisition and extinction of a one-way avoidance response by K. E. Moyer and J. H. Korn, 121

Punishment of instinctive behavior: Suppression of mouse-killing by rats by J. S. Myer, 385

Adaptation and persistence of adaptation to a cold stressor in mice by Z. M. Nagy, 329

Better discriminated bar-press avoidance at short intertrial intervals by J. Pearl and J. J. Fitzgerald, 41

The Kamin effect in fish by G. A. Pinckney, 387

Demonstration of the Kamin effect after one-trial avoidance learning by J. P. J. Pinel and R. M. Cooper, 17

Predictability and number of pairings in Pavlovian fear conditioning by R. A. Rescorla, 383

Shock duration and adhesion in the planaria, *Phagocata gracilis* by J. H. Reynierse, D. D. Jensen and O. F. Schroeder, 335

Effect of punishment on extinction of an avoidance response: Facilitation or inhibition? by N. F. Smith, J. R. Misanin and B. A. Campbell, 271

Incubation of anxiety as measured by response suppression by R. M. Tarpy, 189

REINFORCEMENT

Resistance to extinction after continuous and partial reinforcement in basenji puppies by W. E. Bacon and W. C. Stanley, 327

Sucrose reinforcement thresholds for hungry, thirsty, and non-deprived rats by R. C. Beck and Vicki This Ellis, 199

Goal gradient during acquisition, partial reinforcement, and extinction of a five part response chain by P. W. Becker and J. L. Bruning, 11

The development of rapid running in T-mazes in the absence of obvious rewards by J. W. Clark and S. B. Miller, 127

Runway behavior of the gray rat snake with food and water reinforcement by F. T. Crawford and C. W. Bartlett, 99

Effects of magnitude of reinforcement in *Macaca speciosa* by J. W. Davenport, K. P. Goodrich and W. W. Hagquist, 187

Social interaction between rats on different schedules of reinforcement by H. Davis and L. Wheeler, 389

Response force under fixed-interval reinforcement by L. R. Gollub and R. M. Lee, 9

Differential conditioning and subsequent choice: Partial vs. continuous reward by H. W. Ludvigson, 391

The effects of prefeeding in plain and chained fixed ratio schedules of reinforcement by R. W. Malott, 285

Secondary reinforcing properties of informative and non-informative stimuli by B. McKeever and B. Forrin, 115

Operant control of vocal behavior in the monkey *Cebus albifrons* by Shirley A. Myers, J. A. Horel and H. S. Pennypacker, (Vol. 3), 389

Comment by S. Wechkin and G. P. Sackett, 246

Reply by H. S. Pennypacker, J. A. Horel and Shirley A. Myers, 254

Positive reinforcement: A test of the Premack theory by R. W. Schaeffer, Barbara Hanna and Patricia Russo, 7

The immediate and long-term effect on runway performance of reversing ethanol and dextrose conditions by R. L. Schalock and K. A. Wollen, 113

Contingent and noncontingent responding in squirrel monkeys as a joint function of quality of, distance from, and schedule of food reinforcement by Evalyn F. Segal, 5

Influence of collateral water drinking on bar pressing under complex reinforcement contingencies by Evalyn F. Segal and W. M. Bandt, 377

Preference for fixed vs. variable amounts of reward by J. E. R. Staddon and Nancy K. Innis, 193

An effect analogous to "frustration" on interval reinforcement schedules by J. E. R. Staddon and Nancy K. Innis, 287

Reward magnitude shifts: A savings effect by A. R. Wagner and E. Thomas, 13

Probability learning in the goldfish: I. Aversive reinforcement by F. W. Young and H. V. S. Peeke, 373

EXTINCTION

Resistance to extinction of an escape response as a function of the number of reinforcements by R. C. Martin, 275

Drive and incentive combinations during acquisition, shift and extinction by M. E. Meyer, K. L. Beauchamp and S. J. Pollack, 371
